- SQL-Proficient.

Creative Skills

- **Video Editing:** Proficient in video editing software(DaVinci Resolve)

Projects

Cricket Dream Team Selection

Developed a dynamic React.js application enabling users to build fantasy cricket teams, integrating real-time updates, interactive user feedback, and notifications using React.js and Tailwind CSS.

Donation Bangladesh

Developed a responsive donation platform supporting nonprofits in Bangladesh, implemented a user-friendly layout, and integrated secure payment options using HTML, Tailwind CSS, and JavaScript.

Peddy Petshop

Developed a responsive e-commerce website for pet products using HTML, Tailwind CSS, and JavaScript, incorporating dynamic features such as product filtering and an interactive, user-friendly interface.

Car Management System

Developed a desktop application to optimize car inventory management and streamline rental operations, leveraging Java for robust functionality and user experience.

Project Marketplace System

Engineered a C#-based marketplace application to facilitate project management by enabling user registration, project listings, and secure buying and selling transactions.

Hotel Management System

Designed and implemented a SQL database system to efficiently manage hotel bookings, customer information, and inventory.
